

# CAL-NEVA TOKEN LEDGER

DEVOTED TO WESTERN STATES EXONOMIA

Published by

CALIFORNIA-NEVADA TOKEN SOCIETY

The CAL-NEVA TOKEN LEDGER is the official publication of the California-Nevada Token Society, an informal, educational, non-profit organization devoted to stimulating and maintaining interest in the tokens, medals and other exnumia of the western states.

CANTS was founded in 1971 as the California Token Society. In the same year, the name was changed to the California-Nevada Society to reflect the interests of its members. In 1975, the membership voted to expand the scope of interests to include all the western states, and to consider a change in name in the future depending on member interests.

All members of CANTS receive the CAL-NEVA TOKEN LEDGER as part of their yearly membership dues of \$4.00, paid annually in advance. Back issues, if available, can be purchased @75¢ per issue from the editor.

Reproduction or other use of the material in this publication may be given upon written request.

The California-Nevada Token Society holds two general membership meetings each year, usually in the Spring at the Token and Medal Jamborees in San Jose, Cal., and in the Fall at the annual coin show of the Delta Coin Club, Stockton, Cal. Additionally, local membership meetings are arranged often by various members; notice of these meetings is publicized in the LEDGER, and all interested persons are invited at all meetings.

# Cal-Neva Token Ledger

---

7 MAY 1976 - This issue is a bit behind schedule, but not really very far. My typewriter had to go into the shop twice recently for repair work, and that has put me a bit behind. On top of that, this is an issue I am doing all by myself as Steve has been traveling in Europe for the past month--just back, however.

NEW FORMAT - Judging from the comments and notes received, the new format is popular with our members. If you have any suggestions for improvement, please let Steve or myself know. I did have a bit of trouble last issue with page numbers--what was on p. 14 should have been on p. 8, and the p. 8 material on p. 14. The printer had a bit of trouble because of different reductions for different pages. This issue should allow for greater uniformity.

NEVADA MEETING IN MAY - One of the regional meetings always well-attended and with lots of action is that held annually in Nevada in Carson City. This year that meeting will be on Sunday, May 30, at the home of Hal and Mary Dunn in Carson City. Since that date is during the Memorial Day weekend, it may provide extra travel time for those coming from a distance. Although the meeting time is scheduled from noon to 5 PM, there are usually a few who arrive early, and some who stay late. This promises to be another great meeting. Why not let Hal know if you plan to be there? The Dunn's live at 214 Carville Circle. To get there, once you are in Carson City, go to the intersection of Carson (US 395) and Musser Streets (just north of the Supreme Court and the Capitol Buildings), head west on Musser. After three blocks, turn left onto Division. Then go one block, turn right on King Street (again heading west) and proceed out to Carville Circle which comes in from the left and makes a T-intersection with King (Tacoma is just before Carville Circle, Pitman Circle is just past). If you run into any problems, call Hal at 702-882-0767.

REGIONAL MEETING IN TURLOCK - A regional meeting of CANTS members will be held on Sunday, June 20, at the Stanislaus County Fairgrounds in Turlock, starting at noon. This is the final day of the Central Valley Collectors and Hobby Faire (June 18-20) being arranged by Bob Swain and Duane Feisel. Among the 100 or more dealers expected to be present offering everything collectible will be a number of coin and exnumia dealers. Table rental starts at \$35--contact Bob or Duane for details if you are interested.

SECRETARY-TREASURER's 1975 ANNUAL REPORT

Hal V. Dunn  
15 April 1976

This report reflects those financial items properly attributable to the period 1 January 1975 thru 31 December 1975. It does not include 1974 expenses paid in 1975, but does include 1975 expenses paid in 1976. Further, dues paid in 1975 for 1976 and subsequent years are not reflected as income for 1975, as such items should properly not be relied upon for the current years operation.

INCOME ATTRIBUTABLE TO 1975:

Membership dues, 89 at \$4 each	\$	356.00	
Donation		5.05	
Paid advertisements		<u>15.50</u>	
TOTAL INCOME	\$	376.55	\$ 376.55

EXPENSES ATTRIBUTABLE TO 1975:

Ledger Printing	\$	201.81	
Ledger Postage		93.15	
Ledger Cover Sheets		18.94	
Ledger Mailing Labels		4.06	
Ledger Misc. Expenses		9.06	
Membership Medals		58.98	
Membership Medals Mailing Expense		12.12	
Misc. Expenses		<u>22.23</u>	
SUBTOTAL, OPERATING EXPENSES	\$	420.35	
Capital Outlay, coin camera		<u>85.00</u>	
TOTAL, OPERATING EXPENSES PLUS CAPITAL OUTLAY	\$	505.35	\$ <u>505.35</u>

DEFICIT FOR 1975 (paid from surplus generated in  
1974 and previous years) (\$ 128.80 )

NOTE: \$85.00 of the \$128.80 deficit was for capital outlay,  
leaving an actual operating deficit of \$43.80.

COMMENT: As the total membership increases, the cost to the  
society to serve each member decreases. We now have 151 paid  
members in comparison to 82 at the same time last year and 89  
for the entire year of 1975.

CLASSIFIED ADS - This issue we have more classified ads than ever before. The sudden surge in activity may be related to our new format and more reliable publication schedule, or it may be due to members simply sending along an ad with the membership roster information. In any event, the more ads the better! We strongly urge, however, that when you send an ad, put it on a separate piece of paper and not in the body of a letter. There have been a few complaints that ads were not being used, but I suspect that happened when they were part of a letter which required other action. So, help us and help yourself by putting the ad, typed if possible for greater legibility, on a separate sheet of paper.

CANTS MEMBERSHIP MEDALS--BICENTENNIAL MEDALS - Please note on p. 10 the listing for the special CANTS medals for California; a similar pair exist with the special Nevada design for the bicentennial. Secretary-Treasurer Hal Dunn is in charge of distributing the membership medals and of selling the brass issues. Sales of the brass issues will be restricted to CANTS members only up through May 30; after that, the medal will be offered for sale to other collectors. If you want one or more of these limited issues, now is the time to act! Not only will you be getting a scarcer issue because of the limited striking, but you will also be helping our treasury to return to firmer ground.

LETTERMAN ARMY HOSPITAL TOKEN - The article by Charley Kappen last issue was meant to be illustrated by a rubbing of the token of which I own a specimen. The problem then, and still a problem, is that I am unable to find my token! Thus, a verbal description is in order. The token is brass, 21 mm diameter, inscribed IN TRADE / L.A.H. / MOISE S.F. // 5.

ROSTER INFORMATION STILL SOUGHT - Although an earlier cut-off date was established, there is still time for you to have a detailed listing in the new CANTS roster to be issued in the next few months. If you have not already submitted the information, we are including member's name, address, telephone number, membership number, ex-numia collecting interests, and other collecting interests. Send it to Duane Feisel at once.

Also, this time we are including ads in the roster. The rates are the same as for the LEDGER display ads. Since the roster is issued only every two years, and since it is used so widely, ads will receive maximum exposure.

JULY MEETING IN LOS ALTOS - Another annual affair is the meeting of token collects at the home of Duane and Shannon Feisel in Los Altos. The date this year is Sunday, July 11. More details in the next issue.

## TOKENS OF THE PATRICK MINT

Jess Patrick

The Patrick Mint of San Francisco has recently entered into the field of token production. As many members have undoubtedly observed, the tokens feature either an Indian Head device of Independence Hall design on the one side, with the obverse given over to the commemoration of an event, personage, or a merchant's advertising. These tokens are all struck of copper with a slight alloy, and are all .800" (about 20 mm.) in diameter, thus keeping the series standardized. More reverses are planned for the future to make the series more varied in design. Approximately 300 different tokens have been done already or are in the works, while total production for the Bicentennial year is expected to exceed 1,000 different tokens of all kinds. The following is a list of those tokens already done.

Besides the merchant tokens, a set of 50 great events in American Numismatics is planned with a new eagle reverse. Some of the tokens toward the end of the list will appear in the Merchants Set #3, of which 500 will be put up in contrast to the 250 each assembled for Merchants Sets #1 and #2. When these two complete sets are exhausted, only remnants will be left, and collectors will have to purchase one of the original sets or go through considerable efforts to complete a set. At present, all sets are still available through the Patrick Mint (@ \$9.75 retail per set, plus tax for CA residents).

**GREAT EVENTS:** Set of 50 different tokens commemorating the great events of the American Revolution, all with the Indian Head reverse.

**GREAT AMERICANS:** Set of 50 different tokens commemorating fifty great Americans, all with the Independence Hall reverse.

**MERCHANTS SET #1:** 50 different tokens, all with Indian Head reverse:

CHECKLIST OF BICENTENNIAL MEDALS  
ORDERED THROUGH DUANE H. FEISEL

The listing to follow provides information for all the American Revolution Bicentennial medals ordered through me to date. Orders continue to be filled, and more listings will be generated during the remainder of 1976.

All of the pieces listed are of the so-called dollar size, and are 38 or 39 mm diameter. The method of listing is similar to that being used by Stephen Album for his listings of California medals which has been running serially in *THE LEDGER*. Where possible, I will provide information which will enable you to obtain the medals or tokens. For some of the issues, I am the distributor. For others, I may have a few pieces available, and this will be noted.

The following symbols are used to denote the material from which the piece is made:

|                    |                          |
|--------------------|--------------------------|
| A = aluminum       | S = .999 fine silver     |
| B = brass          | L = lead                 |
| BZ = bronze        | K = copper or red bronze |
| NS = nickel silver | X = gold                 |

The number reported for the pieces struck includes what has been coined to date. It is expected that there will be reorders for at least some of the issues during the year.

Many of the listed items use the special CALIFORNIA SALUTES THE AMERICAN REVOLUTION BICENTENNIAL die which I designed; in the listing these will be denoted by "CA Salutes." Similar dies have also been prepared for other states including Washington, Oregon, Nevada and Pennsylvania; these will be listed in the same way.

= CALIFORNIA =

Token Cataloguing Efforts

Member Glenn A. Rome reports that the  
Education and Research Committee of the  
Seattle Coin Club is working on a catalog  
of Washington State Trade Tokens. The  
completion date is anticipated to be at  
least two hears away.

North Carolina trade tokens are being  
worked on by Charles E. Kirtley, P. O.  
Box 5807 D.S., Durham, NC 27706. Why not  
list your NC tokens to him and help with  
this project?
